

JOSEPH BRICKS

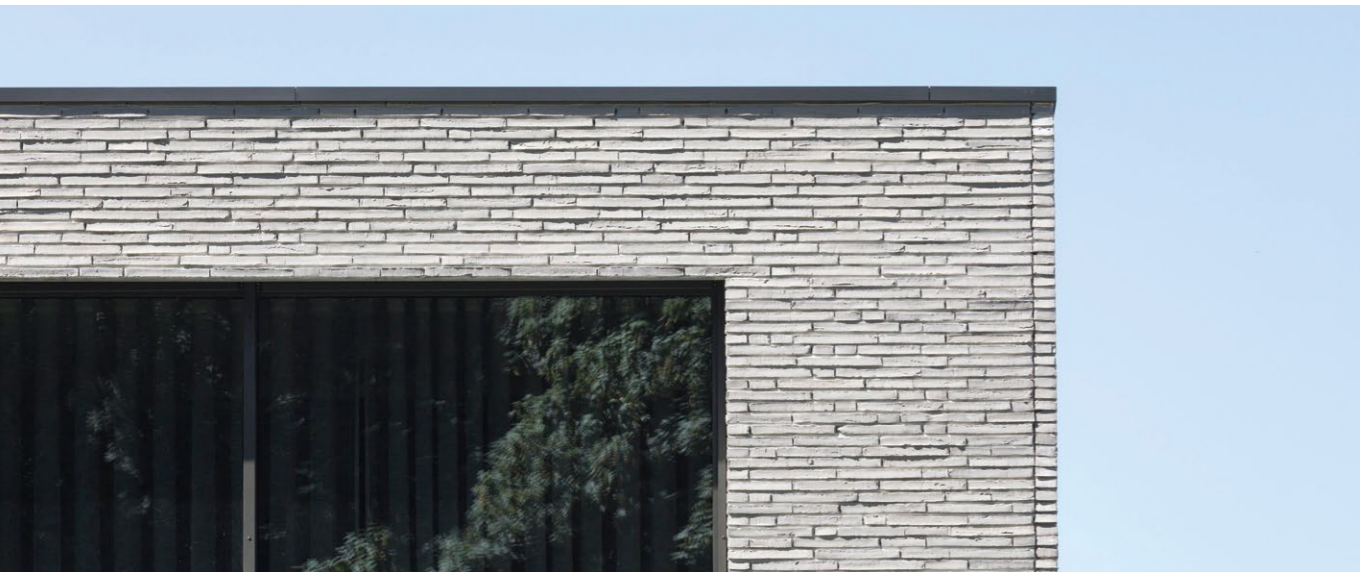

**Designed
to stand out**

The right brick adds style and identity to your brickwork.

At Joseph Bricks, we are convinced of this. Our new range of bricks offers a comprehensive palette of creative possibilities. Give your project a unique and characteristic look. And bring your design to life.

A brick can make or break a building. We believe that you must allow the pure material to speak for itself. As third-generation Belgium-based brickmakers we manage the production process right down to the last detail. Driven by passion and curiosity we seek the boundaries in this ancient product.

Take your design to the next level with smoked facing bricks; an exclusive brick with distinct architectural expression and identity. Play with shapes, structures and patterns to create a distinctive and impactful design.

Curious about the possibilities? Explore examples and craft your own patterns using our online configurator at www.josephbricks.com.
